THE DAY'S OPERATIONS IN STOCKS.

The character of yesterday's transactions in stocks was wholly professional and accurately reflected in the manipulation of a few speculative favorites, principally Sugar Refining, in which a considerable maximum advance was made. It was a good market in which to sell holdings acquired at the level prevailing a week age. Optimists were again at large, and as a consequence sentiment was cheerful over the market's prospects for a further advance. Operations are so professional at present that public traders would better use a searchlight on socalled Wall Street sentiment before coming into the market. This excess of cheerfulness may foreshadow a heavy liquidation by big speculators, and little confidence should be placed in the advance as an indication of the immediate

It does not seem probable that the market is beginning a noteworthy upward movement, despite the fact that sentiment has changed for the better. The public shows no disposition to come into the market, and without the public and easy money a sustained bull movement is An practically out of the question. People who are selling stocks on "bulges" expect to replace them at cheaper prices. Just at present war has lost its terrors, because there have been no defeats; but should bad news come on any day some very weak spots will be found in stocks Traders have decided that Commodore Dewey and his fleet will be victorious, and on the strength of their convictions they have bought stocks and expect a rapid upward movement next week. London prices were lower yesterday, and Spanish securities showed further weakness. The local market, however, ignored foreign conditions, and after momentary hesitation at the opening prices advanced well above Friday's closing, but ended under the highest of the day.

Expectation of easier money rates is not likely to be fulfilled at present. The banks are preparing for the proposed Government loan, and interior institutions are drawing heavily upon this centre for funds. The coming bond issue will doubtless be made in a way to cause the least possible disturbance in money rates, and it is understood that Secretary Gage has assured local bankers that he will arrange the issue so as to cause a minimum of disturbance in the money market. This does not mean that there will be no advance in rates or trouble in the market. The weekly bank statement showed a small gain in cash and surplus holdings, a further contraction in loans and a decrease in deposits. The result of all changes was an increase in surplus reserve to \$44,504,675, against \$48,917,625 this week a year ago, and \$22,944,-275 in the same week in 1896.

At the close of the week the foreign exchange market gave indications that the gold import movement might be renewed before long. The supply of commercial bills was heavier, while the demand from the import trade was light. As credits abroad are still large gold will doubtless soon be moving this way again, unless the foreigners decide to settle their debts in Ar can securities.

Compared with a week ago, the chief active stocks are higher, as follows:

New-York was relatively strong, being 84 cents over Chicago on July, when it closed, which is more than the usual premium. The Western news was bearish, but no one paid any attention to it. The Northwest had 495 cars, against 435 last year; primary markets 566,000 bushels, against 402,000 bushels. Here there were 146 cars, of which 95 were contract and 170 estimated for Monday. Wheat deliveries Monday will be about 2,500,000 bushels, all of which Leiter will pay for. Receipts at Minneapolis and Duluth for the week-2,489 cars-were more than double those of the week previous, and somewhat over last year's. The weather West was very favorable. The trade, however, keeps its eye on Liver. pool, where the May price is now 37 cents over Chicago, and the July price 28 cents over Cudahy was the best buyer of wheat to-day, covering shorts. St. Louis was a buyer. July

THE STATEMENT OF THE AS SOCIATED BANKS IN DETAIL. The following table shows the bank holdings, together with the percentage of reserve held each bank. National banks are required to keep a reserve of 25 per cent, and State banks of 15 per cent.

THE TRADE IN CHICAGO. Chicago, April 30 (Special).-Liverpool was

er its demoralization of Friday, closing &d. igher. The mood here on wheat was exceedngly nervous, and the shorts seemed to be nxious to get out. Nothing influenced the arket more than a Broomhall cable dispatch, thich said that Minister Méline next week could hold a conference with the milling inerests, to discuss the question of the French heat tariff. It was taken for granted that any reduction would immediately jump Liverpool and also built his market. Paris was a little lower, confirmatory of a prospect of a tariff reduction. Clearances were 441,000 bushels. corn, 344,634% cents; calls at 98% cents. Puts on July corn, 344,634% cents; calls, 35 cents.

opened at 93% cents, sold between 93% cents and 95% cents, and closed at 95 cents. Corn was firm, closing 14 to 15 cent over Priday. July opened at 34% cents, sold between 34% cents and 34% cents, and closed at 34% cents. The strength was on export demand,

and with wheat Receipts were 597 cars, with 630 estimated for Monday. Liverpool was 1/2 to 14. higher. Seaboard clearances were 1,055,000 bushels. Export acceptances were liberal Country offerings were only moderate. Charers here were 750,000 bushels. Export sales of corn in the last fortnight from this side have exceeded 15,000,000 bushels. May oats were up a cent early, and did not ose all of it, although the big May holders tock

profits on a fair scale. May sold from 30% to 31% cents and closed at 31 cents. The July advanced % cent, closing at 26% cents. Receipts were 364 cars, with 450 estimated for Monday. Clearances were 188,000 bushels. Export purchases from here were about 200,000 bushels. St. Louis reported large Government purchases there. The market showed some selling of May by the Patten and Frazier interest, which has the big May holding. Shorts were covering May and seiling July. There was a very strong provision market, with lard the leader. It closed 174 cents over Friday, with Cudahy and Ar-

mour the leading buyers. Pork closed 25 cents over Friday; ribs, 124 cents over. There was quite a general trade. The selling was in the way of profit-taking. Hogs were 5 cents higher, with 15,000 received, 37,000 estimated for Monday and 180,000 for the week. Prices at the yards were 5 cents higher. The week's shipments were large, over 19,000,000 pounds cured meats and over 15,000,-
